

# How to get to the Rudbeck Laboratory

## By bus

A number of both local and regional bus routes passes by the Rudbeck Laboratory. The nearest bus stop is Uppsala Science Park on Dag Hammarskjölds väg.

## By bike

There are many nice bicycle routes to Uppsala Science Park. Coming from city, the easiest route is through the city park and then uphill, along Sjukhusvägen. The same route works equally well for a walk. It only takes 10-15 minutes to walk from city. Bike racks are available right next to the main entrance Rudbeck lab. In the reception there are free cycle maps of Uppsala.

## By car

From E4, turn off at Uppsala södra and drive towards Akademiska sjukhuset / Dag Hammarskjölds väg. If using a GPS, set "Dag Hammarskjölds väg 20" as the address.

There are a very limited number of car parking possibilities for visitors to the Science Park, but there are a few parking areas according to map below, and also at BMC on the other side of Dag Hammarskjölds väg.
